E-mail: kniiran@mail.ru.*

*The concept of turbulence is conceptualized in the context of globalization. We consider the formation of turbulence as a scientific concept and as a metaphor. Global geopolitical factors of political turbulence and its influence on folding threats to global, regional and national security are analyzed in the article.*

**Keywords:** *political turbulence, globalization, state, society, peripherals, institutional transformation, geopolitics.*

Post-Graduate,  
Department of Theoretical  
and Applied Political Science,  
Faculty of Sociology and Political Science,  
Southern Federal University,  
M. Nagibina Ave., 13, Rostov-on-Don, 344038.  
E-mail: mr.val.kovalev@yandex.ru.*

*This article analyzes the civic conscience, which is necessary moral and ethical component of the modern civil society. The article states that civil relationships suggest the presence of a secular state, as well as high moral and ethical claims to their citizens. There are indicated reasons for the development of civic conscience in Russian political discourse. The performed research allows us to approve that there is a functional relationship between the civil conscience and other constructs of civil society. This problem has a multidimensional character.*
